

YOUR BENEFITS AT A GLANCE

- ››› Ongoing professional development
- ››› Course contents ready for implementation in your current job
- ››› Minimal classroom-based education promotes work/life balance and learning
- ››› Up-to-date Fraunhofer research knowledge integrated into business practice
- ››› New career opportunities with recognized qualifications
- ››› Advanced access to new technologies
- ››› Tools to develop new products, processes and services
- ››› Competitive advantage through Fraunhofer-Gesellschaft networks

ADVANCED TRAINING WITH FRAUNHOFER

If you have any queries or require further information about any of our programs, do not hesitate to contact the Fraunhofer Academy team. Group photo left to right: Sarah Lechner, Kerstin Dübner-Gee, Monika Weinbuch, Lisa Eifert, Manuel Smid, Eva Poxleitner, Armin Ritter, Clara Tu, Dr. Roman Götter, Jutta Haubenreich, Martin Fischer and Ingrid Breitenberger; not in the picture: Karla Sosa and Marija Jovanovska

Customized training

In preparing our qualification programs, we tailor the content of our training courses to meet your company's specific needs. This means your employees benefit from a uniform understanding of all the topics you consider most important. Customized training and development: the flexible path to qualifications.

COURSES AT THE FRAUNHOFER ACADEMY

CHOOSE FROM FIVE THEMATIC AREAS

ADVANCED TRAINING – THE FRAUNHOFER APPROACH

The Fraunhofer Academy is the Fraunhofer-Gesellschaft's specialist provider of continuing education and part-time training for people in employment. It was founded in 2006 to promote the transfer of knowledge from Fraunhofer institutes' research to private companies. Through a range of training programs, the Fraunhofer Academy passes current research knowledge and expertise of the Fraunhofer institutes on to private sector business enterprises seeking to provide their employees with the best possible qualifications. After all, applied research is only useful if new research finds its way into industry and is then turned into innovations. This is the only way companies can remain competitive in the global market.

Employees of technology oriented companies can choose between part-time study programs, certificate courses and multi-day seminars.

The Fraunhofer Academy's continuing education portfolio is divided into five topic areas: technology and innovation, energy and sustainability, information and communication, manufacturing and testing technology, and logistics and production.

Create the foundation for your next career move!

Best wishes,
Dr. Roman Götter, Head of the Fraunhofer Academy

TECHNOLOGY AND INNOVATION

Executive MBA from RWTH Aachen University
Chief Technology Manager
Intellectual Capital Statement – Made in Germany*

ENERGY AND SUSTAINABILITY

Wind Energy Systems (Master & Certificates)*
Solar Energy Engineering (Master & Certificates)*
MASTER:ONLINE Building Physics
infernum – interdisciplinary distance learning program for environmental sciences
University Qualification in Environmental Management
Energy Data Analyst
Energy System Technology
Electromobility
Resilience Engineering*

INFORMATION AND COMMUNICATION

Master Software Engineering for Embedded Systems*
Software Architecture
TeleTrusT Information Security Professional (T.I.S.P.)
Usability Engineer
Roberta® Teacher Training
Requirements Engineering
Data Scientist Training Series*
Cyber Security

MANUFACTURING AND TESTING TECHNOLOGY

Master Automotive Production Engineering
Fiber Composite Technology*
Industrial Adhesive Bonding Technology*
Bonding Wooden Construction
Quality Control for Wooden Production
Non-destructive Testing
Joining Technology in Electronics
Cleaning Technology
Safety and Security Engineering*
Generative Manufacturing

LOGISTICS AND PRODUCTION

MASTER:ONLINE in Logistics Management
Master Industrial Production Management
Diploma in Supply Chain and Logistics Management (DAS)
Bachelor of Science in Logistics Management
Value Stream Engineering
Lean Logistics
Inventory Management
Variation Management
Product Lifecycle Management

*Programs available in English
